

(a) Full range: refresh is not optional

(b) Operating range: smaller models degrade far less

ImageNet 384, 50k samples, bfloat16, 32 Halton steps. Speedup: single A6000, batch 8, end-to-end (incl. VQGAN decode); transformer-only values are higher (e.g. large N=2: 1.335x vs 1.296x).
